¹ Figures cited for 1999 should be interpreted in light of the following circumstances: (i) Audited financial statements for fiscal 1999 cover a 10-month period only, the CPCC having been incorporated on March 1 of that year; (ii) In accordance with the terms of the Private Copying Tariff, 1999-2000, which was decided on December 17, 1999, collections in 1999 were confined to the balance of that year; (iii) Statements for 1999 were prepared on a cash rather than an accrual basis. Consequently, most expenses incurred in support of the the tariff sought for the years 1999 and 2000 combined were accounted for in 1999.

² Effective January 1, 2007 the CPCC adopted the provisions of the CICA Handbook Section 3855, Financial Instruments - Recognition and Measurement, which addressed the classification, recognition and measurement of financial instruments in the financial statements. Marketable securities are now recorded at fair value and were previously recorded at cost plus accrued interest.

³ This figure is cumulative and reflects distribution of royalties collected for 2000 -2009.

⁴ In 2008, the CPCC collected \$2,919,247 for prior years.

⁵ In 2009, the CPCC collected \$847,264 for prior years.

⁶ The amount available for distribution for 2009 has been reduced by the cumulative unrealized gain on investments of \$1,731 for a net available for distribution of \$19,846.
